EDUCATION

Posts and Telecommunications Institute of Technology (PTIT) *Jan 2027 (expected)*
Bachelor of Engineering in Information Technology (Honors Program)
GPA: 3.63/4.0

RESEARCH INTERESTS

I am interested in the intersection of language and vision, particularly in multimodal learning and vision-language models.

RESEARCH EXPERIENCE

VIVID: A Culturally Grounded Benchmark for Vietnamese NLP [1] June 2025 - Oct 2025
Supervisors: Dr. Long Hoang Dang, and Khanh-Tung Tran PTIT

- Co-developed VIVID, a benchmark of 1,636 Vietnamese idioms and proverbs with fine-grained annotations for linguistic complexity and seven semantic themes.
- Developed an LLM-as-a-Judge evaluation framework and compared four prompting strategies, achieving Cohen's $\kappa = 0.792$ with human judgments.
- Evaluated eight state-of-the-art LLMs, revealing cultural and linguistic failures, with even top models achieving below 50% correctness.
- **Co-first author** of a paper accepted at **LREC 2026**.

Many-to-Many Machine through Multi-Pivot Prompting Dec 2025 - present
Supervisors: Dr. Long Hoang Dang, and Khanh-Tung Tran PTIT

- Proposed Multi-Pivot Prompting (MPP) and Multi-Pivot Representation Steering (MPRS) for many-to-many machine translation.
- Evaluated on 90 FLORES-200 translation directions, achieving improved translation quality while reducing inference overhead.
- **Co-first author** of a paper submitted to **EACL 2027**.

INDUSTRY EXPERIENCE

AI Engineer, Cloud Ace Dec 2025 - Present

- Built and deployed machine learning pipelines and models on Google Cloud Platform.
- Developed AI solutions using managed GCP services for production applications.

Backend Engineer, Nobisoft Jul 2024 - Sep 2025

- Developed and deployed RAG-based AI features for internal tools and customer-facing apps
- Built and maintained RESTful APIs, integrated AI models with production back-end systems

ACHIEVEMENTS

Professional Data Engineer, awarded by Google Cloud	*Fall 2026*
Professional Machine Learning Engineer, awarded by Google Cloud	*Summer 2026*
Academic Excellence Scholarship, awarded by PTIT	*Summer 2026*
Academic Excellence Scholarship, awarded by PTIT	*Fall 2024*
Academic Excellence Scholarship, awarded by PTIT	*Summer 2024*
Academic Excellence Scholarship, awarded by PTIT	*Fall 2023*
Academic Excellence Scholarship, awarded by PTIT	*Summer 2023*
IELTS Academic: 7.5	*2022*

SKILLS

Programming Languages	Python, SQL, HTML, JavaScript, NodeJs
Machine Learning Tools	PyTorch, Pandas, NumPy, Hugging Face Transformers, vLLM
Google Cloud Platform	Agent Platform, BigQuery, Cloud Storage, Pub/Sub, Cloud Run
